

Course Certificate

JensChristian True

has successfully completed an online training course
on April 17, 2024, titled:

**Introduction to Safety for Electrical Medical Devices
and IEC 60601**

Peter Sebelius

Founder & CEO, Medical Device HQ AB

The goals for this course are that you should:

- Understand what basic safety for a medical device is.
- Understand why and how basic safety is implemented and the most common pitfalls in medical device product development and how to avoid them.
- Strengthen your communication skills in the area of basic safety for medical devices.
- Build awareness of effective management of safety throughout the product lifecycle.

The validity of the certificate and the qualifications of the course leader can be verified by contacting medicaldevicehq.com. Refer to certificate no 101295133
